WORK EXPERIENCE

Software Developer — Jan 2023 - present

- Improved software efficiency by troubleshooting and resolving coding issues.
- Increased system stability through rigorous debugging and troubleshooting of complex issues within the .NET framework.
- Developed secure, scalable software solutions by utilizing industry best practices for coding and architecture.
- Estimated work hours and tracked progress using Scrum methodology.
- Mentored junior developers to improve their technical skills, fostering a culture of continuous learning within the team.

EDUCATION

2025 - present	Master of Computer Application at **Indira Gandhi National Open University**
2017 - 2020	Bachelor of Science at **Hiralal Ramniwas P.G. College**

PROJECTS

ERP System Development
Developed an ERP system using ASP.NET MVC and SQL Server, providing functionality for financial tracking, inventory management, and HR. Integrated Web APIs for real-time data synchronization, enhancing operational efficiency.

Task Management System
Implemented a task management system to streamline team activities and deadlines, incorporating notification alerts and progress tracking features for enhanced productivity.

Payroll Management System
Developed a payroll management application in .NET, facilitating automated payroll calculations, tax deductions, and salary slip generation, ensuring compliance with statutory requirements.
